EDUCATION	Stanford Graduate School of Business Non-matriculated student as a Predoctoral Research Fellow Yonsei University <i>B.A. in Economics and Applied Statistics</i> Overall GPA: 4.09/4.3; Majors GPA: 4.17/4.3	2025 – 2019 - 2025
RESEARCH INTERESTS	Applied Econometrics, Policy Evaluation, Applied Microeconomics	
WORK IN PROGRESS	[1] “Causal Inference with fine treatment timing and coarse outcomes”	
PUBLICATIONS	[1] Evaluating the Impact of South Korea’s SME Support Policies Using the Economic Shock of Covid-19(2026) with Seunghoon Lee ; <i>Global Economic Review</i> , Feb. 2026, pp. 1-22	
RESEARCH EXPERIENCE	Golub Capital Social Impact Lab, Stanford GSB Combating Misinformation on Social Media (Supervisor: Susan Athey) • Cleaned and summarized Facebook Platform data, and conducted treatment effect analysis using causal forests, doubly robust estimators, and zero-inflated models • Built replication package for the pre-registered analysis of the paper “Combating Misinformation on Social Media” by Athey et al, (2023) • Generated Simulated Data for external replication studies and validation of hypothesis testing methods	July 2025 – Stanford, CA
	Enterprise Policy Center at Seoul National University Development of a Big Data-Based Evaluation Methodology for SME Support Policies (Supervisor: Seunghoon Lee) • Developed DID strategies for evaluating the impact of SME support policies on self-selected firms • Estimated the impact of small/medium-sized enterprises (SME) support policies on firm survival and performance during the COVID period • Only student to take charge of a chapter (Data Summary and Provenance section) of the final Government Policy Report along with faculty members	July 2024 – Jan 2025 Seoul, South Korea
	Yonsei University Project(s): “Assortative Mating in Cities”, “The Role of Academic Network in Economics Phd Job Market” (Supervisor: Seunghoon Lee) • Produced visualizations and summary statistics of the ACS and PSID data for marriage patterns in different U.S. MSAs and counties • Constructed Shift-Share IVs and Cox Proportional Hazards Models to analyze assortative mating patterns in different cities • Data Collection of PhD Job Market Candidates Information in 2022-2024	Oct 2023 – Jun 2025 Seoul, South Korea
	University of British Columbia, Sauder School of Business Project: “Assortative Mating in Cities” (Supervisor: Sanghoon Lee)	Aug 2024 – Jun 2025 Remote
	Federal Reserve Bank of Philadelphia Project: “Assortative Mating in Cities” (Supervisor: Jeffrey Lin)	Aug 2024 – Jun 2025 Remote

TEACHING EXPERIENCE	Undergraduate Online Lecturer of Microeconomics <i>Yonsei University</i> Video lectures of 13 weeks widely circulated through the official Yonsei lecture platform: Learnus Yonsei		Aug 2024 – Feb 2025																																																																								
SOFTWARE	Quarto Academic working paper template for economists (download here) <i>with Hyoungchul Kim(UPenn Wharton)</i>																																																																										
SCHOLARSHIPS AND GRANTS	Integrated Graduate-Undergraduate Scholarship 2025-2026 full tuition for the Masters degree program, waived after the admission to Stanford GSB Predoctoral Fellowship Honors 2024 Highest Honors , with merit-based scholarship 2023 Honors 2019																																																																										
OTHER ACADEMIC EXPERIENCE	Junior Scholar Club, Economics Chapter 2023 – 2025 - Honor Society for students seeking a doctoral degree in Economics Vice President (2024) Yonsei Applied Microeconomics Reading Group 2024 –2025 Yonsei Microeconomics Reading Group 2024 Applied Economic Methods Study Group 2024 –2025 - Presented on the following topics: “Cluster Robust Standard Errors(Abadie et al., QJE(2023))”, “Staggered Differences-in-Differences(Callaway and Sant’Anna, JMetrics(2021))”, “Introduction to Git/Github for Research”, “Machine Learning Applications in Applied Microeconomics(Athey and Imbens, PNAS(2016))”
